SUMMARY

I'm a student on Bachelor of Computer Science. Besides studying, I have learned this job to build my career. I have been working regularly for 2 years. I made many projects like Healthcare, car repair, hotel booking, e-commerce, leader board, restaurant, etc. I have a lot of work experience but it isn't in any outside company. I make any design very easy. but I can ensure you that I will do this job with my full dedication.
